

We're thrilled to announce the **top 10 innovators** of the **DPI for People & Planet Innovation Challenge!**

Thank you to all 45 innovators who submitted applications for **Round 1 of DPI for People & Planet Innovation Challenge**. We deeply appreciate the time, thought, and effort that went into each submission.

We saw a rich diversity of solutions, ranging from digital infra for water resources to empowering smallholder farmers to generate carbon income, from peer-to-peer EV charging networks to creating a rural water sanitation and hygiene stack.
