

## Congratulations to the shortlisted innovators!

Thank you to everyone who expressed interest and submitted applications to the **DPI for People and Planet Innovation Challenge**. We deeply appreciate the time, thought, and effort in each of the 540+ submissions from over 73 countries.

We saw a rich diversity of solutions, ranging from conserving mangrove forests to developing disaster alert systems, from empowering smallholder farmers to generate carbon income to digitally mapping underwater borewells, and from peer-to-peer EV charging networks to creating a rural water sanitation and hygiene stack. We were truly inspired by the depth and thoughtfulness in each submission.

We're thrilled to announce the innovators selected to move forward to the next round.

Organization names	
Aerobos Environment Solutions Pvt Ltd	Rada 360 Limited
Arthify Inc - Eccounting.Eco	Rechain Technologies Private Limited
Atram	Remote Sensing Technology Center of Japan
Aumsat Technologies LLP	Rumsan
Blooming World International	Satellites On Fire
Chanel's Innovations Ltd	Satsure Analytics India Private Limited
Circularise B.V.	Seabex Sas
Clearprint	Shamba Records
Cooperativa Colanta	Shushilan LTD
